Our Story

Don Enrique Mendoza was born in the city of Esteli, the capital of tobacco in Nicaragua in the year 1978.

At the young age of 17 I became interested in learning the trade and manufacturing of tobacco in a place called "La escuela" in Nicaragua where I stayed for 5 years learning from the best teachers and in this way I managed to become an expert in the creation of the best artisanal tobaccos and thus feel proud to be able to share this wonderful tradition and quality that only connoisseurs will recognize a cigar bun of tobacco made completely by hand and with a big heart.

My dream, the big dream, begins there, leading me to emigrate from Nicaragua, my hometown, to the beautiful country of Costa Rica, where I have been able to develop my tobacco manufacturing company and be able to provide work to the people in the community.

With 28 years of experience, I have had the opportunity to know, mix and try different types of tobacco, which are currently sold in the national and international market with my own brand "Don Enrique Cigars". My brand is 100% handmade by me, in the most delicate way and with the highest quality for each of my clients according to taste, each cigar is rolled with my bare hands and with the same passion as I started and I am proud to continue bringing my products to the entire world.
